

WORKSHOP ON ELECTROSENSITIVITY

SEPTEMBER 27–28, 2001
AT BERGENDAL CONFERENCE CENTER, STOCKHOLM

PROGRAM

Thursday 27:

- | | |
|-------|---|
| 09.00 | Registration |
| 09.55 | Welcome adress |
| 10.00 | New diagnoses.
ROBERT OLIN, M.D., Professor em. Social medicine, Stockholm, Sweden |
| 10.25 | Characteristics of EHS in Sweden.
BERNDT STENBERG, M.D., Ph.D., Ass. prof., Dermatology & Venereology,
University Hospital, Umeå, Sweden |
| 10.45 | A Summary of 5 years reserach on electrical hypersensitivity
at the Natl. Inst. for Working Life in Umeå.
EUGENE LYSKOV, M.D., PhD, assoc. prof. NIWL and
MONICA SANDSTRÖM, Ph.D., Researcher NIWL, Umeå Sweden |
| 11.45 | Break |
| 11.55 | Survey of Symptoms related to mobile base stations.
KJELL HANSSON MILD, Ph.D., professor Univ. Örebro and NIWL, Umeå |
| 12,15 | Can it be explained why some persons have concentration
and memory difficulties after working with VDT?
LARS RÖNNBÄCK, Ph.D., M.D., Prof. Inst. of Clinical Neuroscience, Sahlgrenska
Univ. Hospital, Göteborg, Sweden |
| 12.45 | Lunch |
| 14.00 | Chemicals Causing Permanent Light Sensitivity (PLS);
Possible sources, transport routes and effects.
PER HEDEMALM, Senior Consultant Orango, Göteborg, Sweden |
| 14.30 | Electrosensitivity – the cutaneous experience.
OLLE JOHANSSON, Ph.D., Assoc. prof., Experimental Dermatology Unit,
Department of Neuroscience, Karolinska Institute, Stockholm, Sweden |
| 15.00 | Discussion |
| 15.30 | Proof of interaction between low frequency magnetic fields
and cellmembranes.
JACOB EBERHARDT, Ph.D., Inst. for Radiophysiology, Univ. Hospital, Lund, Sweden. |
-

16.00– 16.30	Static magnetic fields causes variations in creatinine and calcium in urine and blood.
	REIDAR LÖVLIE, Prof. Institutet of Solid Earth Physics, University of Bergen, Norway
16.45	Double-blind study on effects of 50Hz EMF on sleep quality and physiological parameters in people suffering from EHS.
	CHRISTOPHER MUELLER, Dr. Sc. Swiss Fed Inst. of Tech (ETH), Zürich, Switzerland
17.15	Does EMF interfere with cortisol-production and stress-load on our brains?
	CHRISTINA ELIASCH, M.D., Head Medical Officer, Social Insurance Office of Stockholm County
17.45	Discussion
19.00	Dinner
Friday 28:	
09.00	Experience from ten years work with EHS patients.
	ULRIKA ÅBERG, M.D., Spec. child & youth psychiatry, Skövde, Sweden.
09.30	Rehabilitation of EHS-patients; the experience of Elrum.
	MARTIN ANDERSSON, Working-Environment Consultant, AMA-konsult, Skellefteå, Sweden.
10.00	Break
10.20	Cases of Electrosensitivity in Belgium.
	MARION CRASSON, Ph.D., Research fellow, Psychoneuroendocrinology Unit, University of Liège.
10.45	Contributions of laboratory medicine in cases of metal overload.
	ULF LINDH, Ph.D., Ass. prof., Centre for Metal Biology in Uppsala, Department of Oncology, Radiology and Clinical Immunology, Uppsala univ., Rudbeck laboratory, Sweden.
11.15	Does removal of dental metals help the electrically sensitive?
	KARIN ÖCKERT, D.D.S. Specialist of Periodontology, Göteborg, Sweden.
12.00	Lunch
13.30	Allergotoxic side-effects of dental alloys in dermatological patients.
	JOHN G. IONESCU, Ph.D., Research Dir. Spezialklinik, Neukirchen, Germany, Prof. of Clinical Biochemistry, Capital Univ., Washington D.C.
14.00–16.30	Discussion
